

Dear Old Boys of the Southern California Chapter,

Greetings from Hong Kong! Congratulations on completing another busy year of activities for old boys in the South Cal region. I also thank you for offering your support back to La Salle in HK over the years. Southern California is a key destination for many of our younger Lasallians for their further studies, and the role you can play to make their experience of going abroad fruitful is great.

As you look forward to the new term of your Chapter, I hope that I, with the HK Old Boys' Association Committee, can work with you all even more closely, in particular for students and young old boys of La Salle College, as they move into a new stage of their lives in North America, and also into the working world.

Although you all in South Cal, the HK Old Boys and La Salle College are thousands of miles apart, our hearts and passion for the school are as close as friends sitting side by side in our old La Salle classrooms. Let's use our Lasallian network to make our Alma Mater Something More.

Warmest brotherly regards from Hong Kong,

Mark Huang

President
